

InfoLink 5

Simple, easy, and safe.

details

A healthy set of features.

InfoLink 5

InfoLink is an ergonomic computing touchdown station that helps care for the health of healthcare workers while they're caring for the health of their patients. It instantly adjusts to alleviate the stress of improper posture as it meets the height range of the many users – doctors, nurses, dieticians, social workers – who input information.

Right-sized.

Wall-mounted to meet the limited space needs of patient threshold areas in healthcare facilities.

Also ideal in other limited space environments including libraries, academia, financial and more.

Obligatory and important basic feature information.
