

Infolink 5

InfoLink is an ergonomic computing touchdown station that helps care for the health of healthcare workers while they're caring for the health of their patients. It instantly adjusts to alleviate the stress of improper posture as it meets the height range of the many users - doctors, nurses, dieticians, social workers - who input information.

Product Features:

- Simple operation requiring one hand to adjust height or monitor orientation
- Surface space to accommodate keyboard, mouse, chart, scanner, etc
- Raised edge on surface prevents items from rolling off
- Steel CPU area keep hardware secure using mechanical, tamper-proof fasteners
- Perforated door on base lets heat dissipate from CPU and access to hardware for service
- FYI™ Monitor Support allows quick orientation and height adjustment to meet user's preference
- Wall mount plate installs quickly, to 16" or 24" on-center stud locations w/o backing required
- Cord management included to secure cables

Product Specifications:

- Style Number: HCIL5
- Finish: Sand with Steel Solid accent
- Overall Dimensions: W26" x H42" x D20" (42" height is based on a measurement from the bottom of the unit to the top of the flat panel arm with the worksurface in its lowest position; height with worksurface fully extended is 60")
- Unit weight: 90 lbs.
- Worksurface*:
 - Powder coated MDF: W26" x D19" x 1" thick
 - Supports up to 25 lbs. (including weight of monitor and arm)
 - Vertical adjustment 18"
 - Finish: Sand
- Monitor Support:
 - FYI Flat Panel Monitor Arm supports monitors up to 20 lbs.
 - Finish: Pewter
- CPU Cover*:
 - Powder coated steel with tamper proof perforated steel CPU access doors
 - Inside clearance: W4-1/4" x H14" x D17"
 - Supports up to 25 lbs.
 - Finish: Sand with Steel Solid CPU access doors
- Wall Plate:
 - Powder coated MDF: W26" x H25-1/2" x 2" thick
 - Predrilled for 16" or 24" on-center stud locations
 - Finish: Steel Solid
- Warranty: 2 years

Recommended mounting specifications:

- Bottom of wall board is at 6-1/8" off floor (Top fastener is at 29-1/2" off floor)
- Results in a surface height that will range from 34" to 52"

* T27 torx driver required for Worksurface and CPU Cover installation.
